Thursday, July 17th, 8:00 a.m. - 10:00 p.m.: *Edited screenshots for “Pack the Courtroom pt 3”. Hitchhiked to Nevada County Courthouse to inquire if I could have a jury trial because the two counts of the state vehicle code I've been accused of violating says that “a second conviction is a misdemeanor (Officer Landon told me that it was three convictions and that is on video evidence, so this came to light only two days ago while investigating.). I also went to the courthouse to request an extension and have the trial set at a later time because I still have much work to do at this time in order to properly prepare the video evidence and bring it into context. Sean Metroka again regarding Media Policy being a deprivation of rights, and to find out whether the NC Superior Court was a “public or private entity”, but did not receive a clear answer (still unsure), because I needed to know what type of agency was depriving my right to record in the courtroom. After he made it clear that he was not in defense of the Bill of Rights in this case, but instead of a “MEDIA POLICY” that is in direct conflict with the protections of the First, Fifth, and Fourteenth Amendments, I got his business*

cared, and began filling out affidavits for the arrest of both police officers, the chief of police and Mr. Metroka to present to Her Honour, Judge Linda Sloven in court.
